SUMMARY

Data Analyst with **5+ years of experience** in **business intelligence**, **SQL-driven analytics**, **ETL workflows**, and **Power BI dashboard development** across **Retail**, **FMCG**, and **E-commerce** domains. Skilled in **SQL**, **Python**, **Advanced Excel**, **DAX**, and **stakeholder reporting** at **WBR/MBR** level. Experienced in transforming raw data into actionable insights.

SKILLS

Languages & Libraries: SQL | Python (Pandas, NumPy, Matplotlib, Seaborn)

BI & Visualization: Power BI | DAX | Tableau | Advanced Excel (Power Query, Power Pivot, Pivot Tables)

Databases: MySQL | PostgreSQL | MS SQL Server

Tools: VS Code | Git | JIRA | Microsoft 365 | Google Workspace

Analytics: Data Analysis | Exploratory Data Analysis (EDA) | Statistical Analysis | Root Cause Analysis | Ad-hoc Reporting

Soft Skills: Stakeholder Management | Business Reviews (WBR/MBR) | Data Storytelling | Cross-functional Collaboration

WORK EXPERIENCE

Data Analyst | Ranjan Technologies — Retail & FMCG

Apr 2024 – Present

- Analyzed inventory movement data across **50+ SKUs** using SQL and Excel to identify fast-moving and slow-moving products, reducing stock imbalances by **25%** and improving inventory planning accuracy across stores.
- Built and maintained **6+ interactive Power BI dashboards** to monitor stock availability, stock-out trends, and excess inventory, enabling faster replenishment decisions and achieving a **20% reduction in stock-out incidents**.
- Conducted variance and trend analysis on sales data to support **pricing strategies**, **promotional planning**, and **inventory decision-making**, reducing revenue leakage by **18%** and improving campaign effectiveness.
- Developed **interactive sales performance dashboards in Power BI** tracking revenue trends, top-selling products, seasonal demand patterns, and store-wise sales, reducing manual reporting effort by **30%**.
- Engineered SQL + Python (Pandas) ETL pipelines for weekly/monthly sales data extraction, cleaning, and trend analysis, enabling accurate business performance and category-level reporting.

Learning Service Analyst | Telus International — Crunchyroll

Aug 2022 – Apr 2024

- Analyzed onboarding, training, and post-training metrics for **100+ employees** using SQL and Advanced Excel, contributing to a **20% reduction** in new hire ramp-up time and improved first-month productivity.
- Developed **8+ Power BI dashboards** to monitor batch performance, certification status, CSAT & trainer effectiveness, enabling data-driven coaching strategies that improved batch success rates by **25%**, and new hire retention by **20%**.

Customer Experience Analyst | Telus International — E-commerce US

Jun 2021 – Aug 2022

- Performed data analysis on **QA audits**, **customer feedback**, and **operational KPIs**, and recommended action plans for support agents contributing to a **20% improvement** in overall **quality scores** and **15% increase** in **CSAT** scores.
- Designed and delivered Power BI dashboards and reports for **WBR and MBR** presentations, giving leadership real-time visibility into operational KPIs, audit trends, and performance metrics for **800+ agents**.

PROJECTS

Gurgaon Real Estate Analysis | Python (Pandas, Matplotlib, Seaborn) | [Link](#)

- Cleaned & Analyzed **10,000+ property listings** to map price trends by locality & BHK type to support investment decisions.

Consumer Goods Sales Dashboard | SQL, Power BI | [Link](#)

- Performed end-to-end SQL analysis on consumer goods data, using **CTEs**, **Window Functions**, and **JOINS**.

EDUCATION

M.Sc. in Data Science & AI — Symbiosis International University, Pune

Pursuing Online (Expected 2028)

Bachelor of Computer Applications (BCA) — Kalinga University, Raipur

July 2018 – Apr 2021

Diploma in Electronics Engineering — Government Polytechnic College, Jodhpur

July 2015 – Feb 2018

CERTIFICATIONS

AI Powered Data Analytics — CodeWithHarry | [View](#)

Google Data Analytics — Coursera | [View](#)
